To Whom It May Concern:

It is with pleasure that I write this recommendation letter for Ms Maria Rapti. I have been employed at Globo Technologies S.A. since November 2014 as Department Manager. Maria Rapti was a team member of our Enterprise Software Solutions Department.

During this engagement she showed a positive attitude under pressure and demanding IT projects. She performs excellent in tasks and time management. She also showed analytical thinking to challenges and the ability to gain new knowledge at a fast pace. She was able to communicate effectively with the clients, to understand their needs and chase a solution, at all projects. I admired her social intelligence and team spirit among all team members.

About code development she performed also very well. She played a vital role in successful deliverables, contributed effectively in large scale IT Projects. I would like to point out also that she tried hard to develop her self at every challenge ahead.

As a conclusion I would highly recommend Maria Rapti for a developer's position. I am definitely positive that she will give her best to fulfill the expectations. At your disposal for further information.

Kind Regards,

Sotiris Maroudas

Manager, Enterprise Software Solutions
