

Vaqar Hyder

Address: Hirschberger Str. 58 - 62, Zi. Nr. 43120, 53119 Bonn, Germany

Cell Phone#: 017684838536

e-mail: vaqar.hyder3567@gmail.com

Date of Birth: 07th Dec 1985

Nationality: Pakistani

Languages: English, Urdu, German (Limited working proficiency), Punjabi/Siraiki

CAREER OBJECTIVE

"To achieve a distinctive role as an IT professional, in an Enterprise, that believes in Technological Advancement and provides strong Growth Opportunities as well, in an Innovative environment."

EDUCATIONAL BACKGROUND

Qualification	Majors	Institute	Status
Master	M. Sc (Media Informatics)	RWTH Aachen University Germany	Graduation expect at the end of May 2013.
Graduation	BS (Computer Science)	University of Karachi Pakistan	With a CGPA of 3.2/4.0 (A-Grade) in Dec, 2008

SKILLS AND EXPERTISE (3 years of experience)

- To date, I pursued my major development work using following platforms and tools:
 - **Programming Languages:** C#/VB.Net, Java C++/ VC++
 - **Web development:** ASP.Net, PHP, HTML, Java Script, JQuery, AJAX, .Net Web services, XML
 - **Databases:** MS SQL Server (Transact SQL) , MySQL, PL/SQL
 - **Products:** SharePoint 2010 development with Server and client object models, Web Parts, Customizations using SharePoint Designer 2010, Workflows and Concepts of ECM, Integration with Microsoft 2010 suite.
 - **Open source Application Development:** customization of an ERP "Open Bravo" (uses Java 2 SE, PostgreSQL, Apache Tomcat, JasperReports), Open source CMS such as Joomla (Extension development), Implementation and customization of OS Commerce
 - **Software Developmental Paradigms:** Agile, User Oriented Software construction, Extreme programming.
 - **Cloud Computing:** SharePoint Online

EXPERIENCE

Organization	Duration	Details
Content Team AG	From 01/07/2012 to till to date	<p>In the position of .Net & SharePoint Developer, I developed features and customizations for SharePoint 2010/2007 such as:</p> <ul style="list-style-type: none">• Developed a Performance Mgmt System (PMS) based on SharePoint Online using out-of-the-box solutions, sandbox web-part, workflows, lists views and filters and customization using SharePoint Designer.• SharePoint 2007 customization using SharePoint designer 2007, implementing List filters, SP Web service calls using JavaScript.• Developed .Net Web-Services for accessing SharePoint document library from the iOs based devices.• Developed a primitive CRM system based on SP2010 using SharePoint Designer, InfoPath and very minimal coding.• Integration of SharePoint 2010 with MS office suit and for Outlook in particular using Client Object Model.
Fraunhofer IAIS Institute Bonn Germany	From 01/01/2011 to 30/06/2011	<ul style="list-style-type: none">• In the capacity of a student research assistant, I pursued research in the field of Human Computer Interaction and Large scale Data visualization.• I worked on integrating multitouch interaction to an open source seismic data interpretation system using QT and TUIO frameworks.
e-Bizsoft, Inc. Karachi, Pakistan (US based Microsoft Gold Partners)	From March 2009 to August 2010	<ul style="list-style-type: none">• As a Software Engineer, I was a part of a team developing innovative solutions for the clients in US, to support their back office work and marketing campaigns.• During my tenure, I've worked over a feature-packed webservice based back office app, supporting business processes & a dynamic website facilitating online shopping, supported by Web Services.

Synapse Consulting Karachi, Pakistan	From Feb 2008 to March 2009	<ul style="list-style-type: none"> For a hassle free application deployment, I also worked on “Click Once” deployment solution to keep the apps auto-updated. As a Software Developer, I had diversified assignments including couple of ERPs along with .Net and Open Source projects. Below are few of my pursuits: <ul style="list-style-type: none"> I, along with my team, successfully implemented “Openbravo”, an open source ERP, in an Instrumentation and Engineering Company. Performance Appraisal Application being a project on which I worked right from its initiation till it went live. I’ve been a part of team implementing a Distribution system for a leading Cigarette distribution company. My JD also comprised of Client dealing, preparing proposals (FS), requirement gathering and meeting with interested companies. Supported and customized Web based ERP and a Payroll application developed over VB 6.0 and ASP, for a well reputed Textile Company.
---	-----------------------------------	---

Overview of Academic/Professional Projects

Project	Details	Technology
Performance Management System on SharePoint Online	With features such as <ul style="list-style-type: none"> Time capturing web-part, Reports for hours, Holiday & leaves approval process web-part & workflows. Different views for Events and calendars Few other features for supporting daily office work based on roles. To do that I developed sandboxed solutions using C# and for customization, I used SharePoint designer	SharePoint 2010, C#, ASP.Net, SP Designer, JQuery
SharePoint Web-service for iOs based Devices	A web service with web methods such as authentication, retrieving list of files against a customer and getting a specific file contents in any format.	C# and .Net Web-services
Outlook SharePoint Integrator	An Outlook 2010 add-in <ul style="list-style-type: none"> Provides the user with a panel showing content of the document library Uses a tree view against all every URL of the SharePoint Site entered by the user. The user is able to attach the file from Doc Lib to email, Copy the link of a file and Drag and drop the entire email and with/without attachment to any folder in doc lib. 	C# using Outlook object Model, SharePoint 2010.
Social Quiz Game	A Facebook Social Media Quiz Game (http://apps.facebook.com/socialquizgame/), developed in collaboration with Cyntelix (http://www.cyntelix.com/), as an extension of a television quiz show. We aimed towards developing a generic game engine which abstract/agile enough to drive any quiz game.	PHP, MySQL and Facebook SDK
Gesture Driven PowerPoint Using Microsoft Kinect	Gesture-driven presentation system offers an alternative paradigm to the orthodox keyboard-and-mouse-controlled presentation system. User using certain predefined hand gesture could manipulate the presentation.	VC++ and Open Kinect SDK
ERP Systems	Worked on various custom ERP systems’ Modules during my professional career. I took part in development of ERP modules such as Inventory Management, Sales Management, Purchase Management, Back office Operations and CRM etc.	IC#, .Net Web services, Java,

EXTRA CURRICULAR ACTIVITIES

- Participated in Various programming competition
 - In **2007**, with my team, stood **Runner up in All Karachi Dynamic Programming Competition** part of **UTECH 2007 in Usman Institute of technology**.
 - I participated in Procom 2006-07 held at Fast Karachi and Tec Elite’s Speed Programming competition 2007 and secured 7th position.
- Creative Writing has been my area of Interest & I express everything via Blogging (vaqarhyder.blogspot.com).
